LB 131A, 131

sides of this issue. I guess I have finally reached the conclusion in my own mind the case has not been made for the passage of LB 131. I think in the area of licensure, in the area of dealing with people with very serious health problems, if we are going to come down on either side, we should be on the conservative side in not advancing a new proposal until such time as all of the facts are on the table and we are 100 percent convinced that there is no longer a reasonable doubt. I think the recommendation of 407 from Dr. Wright still leaves a reasonable doubt in our minds and for that reason I am not going to support LB 131.
